Press release No. 2, 2015

MARIANNA SIMEONE APPOINTED TO THE BOARD OF DIRECTORS

Rouyn-Noranda, Quebec, February 26, 2015: Radisson Mining Resources Inc. (TSXV: RDS) ("Radisson") is pleased to announce the appointment of business manager and broadcast journalist Marianna Simeone to its Board of Directors.

Ms. Simeone is a well-known and respected voice in the Montreal business community. She began her career in international business as executive director of the Montreal Italian Chamber of Commerce. Under her leadership, the local organization grew to be the most performing in the ICC's North American network. For the ICC Marianna founded branch offices in Vancouver, Quebec City and a business promotion office in Milan with the government of Quebec.

From international business development Marianna moved into the world of media, where she made her mark. For close to 15 years, Marianna hosted television and radio shows and delivered thought-provoking commentary on some of Montreal's major media networks, including CBC and Radio-Canada. For her editorial work Marianna was a four-time winner of the RTNDA Award.

For her contribution to Canada-Italy business development, Ms. Simeone was decorated "Knight" by the Republic of Italy. In 2012, she was awarded the Queen Elizabeth II Diamond Jubilee Medal. Last fall, the Montreal YWCA granted Ms. Simeone the Woman of Distinction award for her innovative work in communications.

Through her involvement with several prestigious organizations, Ms. Simeone developed an impressive network of contacts. She was a member of the Concordia University Board of Governors, the Montreal Port Authority Board of Directors as well as numerous other prominent boards.

As a Director, Marianna Simeone will receive 200,000 stock options at a price of \$0.10.

" Ms. Simeone has enriched her vast experience in the field of international commerce with indisputable communication skills. Radisson's ambition is to transition from being a mining exploration company to a junior producer in the near future. With that view, results of the PEA underway for our O'Brien/Kewagama project should be released during Q2. Hence, Ms. Simeone's nomination completes and expands the general expertise of our Board of directors. We welcome her with great enthusiasm," said Radisson's President, Mario Bouchard.

PDAC 2015

Radisson invites shareholders and investors to meet the Company's management at booth #3312 at the PDAC convention, which will be held in Toronto from March 1st to the 4th. The team will be presenting a 3D block modeling of the O'Brien/Kewagama project, a unique

communication and drilling target tool that will clearly illustrate the immense potential of the project.

ABOUT RADISSON MINING RESOURCES:

Radisson is a Québec-based mineral exploration company. The adjoining O'Brien and Kewagama properties, cut by the regional Cadillac Break, are Radisson's main assets. They contain the O'Brien Mine, which is considered to have been the Abitibi Greenstone Belt's highest-grade gold producer during its production (1,310,356 short tons at 0.448 oz/t from 1925 to 1956; RPA, May 2007).

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
