About Radisson Mining: Radisson is a Quebec-based exploration company with an interest in seven properties in northwestern Quebec and one property in northwestern Ontario. The main asset of Radisson, the O’Brien - Kewagama Properties comprise 617.48 hectares in the western part of Cadillac Township, Quebec in the heart of the Abitibi Gold belt. These Properties contain the former O’Brien Mine, the highest grade and the most important gold producer in the Cadillac Mining Camp in Quebec when it was producing from the early 1930s to the mid 1950s. Radisson now has established a new zone, the 36 East Zone, 2500’ east of the old producing zone of the O’Brien Mine, with comparable high grades of gold. The Company completed a successful drill program in 2008 on the O’Brien Mine property and the contiguous Kewagama Mine Property. A second major gold project of Radisson is the Massicotte claims group described in the Company’s news release of September 2, 2009 available on the Company’s website.

Several mining companies are producing gold or have established gold reserves in the Cadillac Break in the same area of northwestern Quebec as Radisson’s O’Brien and Kewagama properties. These companies include Agnico-Eagle Mines Limited, Alexis Minerals Corporation, Aurizon Mines Limited, Globex Mining Enterprises Inc., Iamgold Corporation, and Osisko Mining Corp.

PDAC 2010 Convention: Radisson will participate in the Prospectors & Developers Association of Canada 2010 Convention in early March. We welcome all visitors to our booth #3326.
